ELEVEN FACTS ABOUT HUMAN MIND

BY

NIYI MAKINDE.

INTRODUCTION

From the time I understood these facts about human mind, I have been very conscious of the things that enter my mind and the things I process in my mind. The mind is very powerful and you must not take it for granted. Among the three compartments of man – spirit, soul and body, the mind is the most effective. The mind is found in the soul. The most effective and the most powerful organ in your soul is the mind. When your mind is affected, your spirit will be affected because your mind can limit the effectiveness of your spirit.

When your mind is affected, your body will be affected. A sick heart will always produce a sick body but a healthy heart will eventually help a sick body to be healed faster. Therefore, it is important you understand these eleven facts about human mind. It should be noted that there are many facts about human minds, but I will limit the discourse of this book to these eleven facts.

1

THE GREATEST BATTLE IS IN THE MIND

The devil cannot reach your spirit but the devil can reach your mind. All the devil is seeking is to take control of your mind. The devil is a spirit and you are a spirit also. The devil does not and cannot do anything about your spirit – your inner man. The devil is not concern about your spirit, all he is after is your mind. Do you know that your inner man also needs your mind to function? The greatest battle that will ever happen in your life is in your mind.

Your mind is made up of three organs. The three organs are your intellect, imagination and memory. Your intellect read and thinks, your imagination envisions or visualize while your memory stores information. Negative information from your memory can affect you. Negative information may be the things you have watched in the past or the things you have been told or done in the past. You have to study your memory. Negative information cannot influence your life until they come to your mind. Now this is the battle, pieces of information in your memory are striving to take place and position in your mind.

Certain information coming from your arch enemy (devil) too is also trying to take position and place in your mind, certain instructions and divine information coming from your human spirit or God want to take place in your mind too. So, you can see the contentions and battle for space in your mind.

Several entities – divine and human – are striving for space within you. Many individuals are fighting for space in your mind. The devil is trying to fight for space in your mind. Things stored in your memory are striving to get space in your mind. God also wants to have place or space in your mind. Your inner man functions based on the things you have in your mind. Those battles, warfare going on in the realm of the spirit always reflects in your mind.

When battles are won in the spirit realm, the place where the signal first takes place is in your mind. For example, mountains are powerful. When a mountain is set before you, you should remember the book of Zachariah 4:7, the prophet said “who are you great mountain before Zerubbabel, you shall become plain.” The mountain before Zerubbabel in the realm of the spirit cannot be seen physically but would appear physically in the form of an ignorance. When you cannot see the other side of your destiny or what God is showing you, then, there’s a mountain before you. The mountain before you will manifest as ignorance in your mind. In order to fight that, it means the mountain has to become plain. When the mountain becomes plain in the spiritual world, the effect of that mountain that becomes plain in the realm of the spirit is that the mind of that person will be able to think through. Too many people are thinking, but they have not been able to think through. The reason for such is because there are contentions and battles going on in the realm of the spirit. Sometimes, you need to conquer in prayers to be able

to penetrate through creative thoughts. Thinking through will help you to breakthrough.

When you think through, you will breakthrough. Sometimes, we talk about the ability to think and see because as a man thinks in his heart so is he. People are thinking when they have not won and conquered the warfare, battles in the realm of the spirit. You have to know as an individual that just as battles are going in the realm of the spirit, the effect of this is that there will be contention for space in your mind. Battles going on in the realm of the spirit will reflect in the life of person, as thus, there will be confusion in the life of that person. There will be disorder in the life of that person. There will be ignorance in the life of such person. All of these are signals to the warfare going in the realm of the spirit. So battles going on in the realm of the spirit are always reflection of the battle going on in the mind.

When arrows are launched in the realm of the spirit, for instance, shooting gun, use of cutlasses, shooting of arrows in your mind, those things will have effect. You will not hear them as bullets and arrows because none of these will come to your mind, the way they will come to you is through thoughts. Thoughts are arrows: arrows of defeat, loss, delay, regression that are shot. Several battles in the realm of the spirit will always reflect as thoughts, confusion and things going on in the mind of a man. When your mind is muddled up, it could be a sign that there is a contention going on in the realm of the spirit concerning you.

Sometimes, when you praythrough, you will realize that the effects of that prayer are creative thoughts that will flood your mind. This way, you will suddenly know what to do next or who to talk to. Breakthrough in the realm of the spirit will manifest as clarity of thoughts in your mind. Creative

thoughts and inspiration are signs of breakthrough. Just as angel Gabriel was arrested for twenty one days by the prince of Persia in the realm of the spirit, a creative thought might have been sent to you but there is a force hindering that thought from getting to you. Creative thoughts and ideas don't stay in your spirit but mind. They may flow through your spirit to your mind. Thoughts are vibrations which come to your mind. There could be something blocking the flow of thought, inspiration, creativity and instructions to you but when you pray and breakthrough in the realm of the spirit, you will get to a point that you know what to do.

The greatest battles are always in the mind and the word of God is to renew your mind. When you got saved, your mind was not saved, it was your spirit that was saved. The word of God is to affect the way you think. The word *renew* means to re-programme your mind (that your mind should not think the way you used to think), in other words, your mind should think in a new way. There is a way we think in the kingdom. It is by learning, receiving, doing the word that you are able to think, live and behave the way it is in the Kingdom. There is a lifestyle of the kingdom. So, to renew your mind is to re-programme your mind. To renew your mind is to re-fix, adjust and change it. Your mind should no longer think the way it used to function when you are not saved but to think and function the way it should function now that you are saved. You have to know this: that you win the battle in your mind. Two places you must always win are: prayers and your mind.

You must win over poverty. Poverty is a battle in the mind. Lack is a battle in the mind. Lack is not what we don't have; lack is what we don't know and who we don't know. So when you win the battle over lack in your mind, you suddenly know what

to do to have what you need, you suddenly know who to go to, who to call to have what you need. You win the battle in your mind.

Laziness is of the mind. You have to know that. Too many people are lazy. If it is true that laziness is of the mind, you have to win the battle in your mind. I understand by revelation that sometimes, there are demonic spirits and forces that makes the body of people to become weak. Sometimes, everything is not mental. We must not be too psychological about everything. There are times that some people just feel tired; there are some demonic forces responsible for that. One time, Kenneth Hagin saw in a vision a woman who always got tired and weak. While Kenneth was praying, he saw one demonic spirit blowing air on the woman. Anytime this demonic spirit blew air on the woman, the woman would just sleep off. Some could think the woman was lazy or loves to sleep. Absolutely, No! Some spiritual forces are influencing her. There was no way she could resist them physically or logically. You have to understand the fact that spiritual entities are real. In this situation, a person needs to arise to enforce authority in the name of Jesus. You've got to command whatever is influencing you to leave in the name of Jesus.

Matters of the mind should be won in the mind. You have to win the battle over laziness in your mind. There are some laziness that are not spiritual but just a form of mental laziness where people are just sluggish, they don't know how to act fast; they don't know how to respond to some things fast.

Envy is of the mind. When you are envious is when you assume that what someone has should belong to you. When you are jealous is when you assume that what someone has (possess), the person is not qualified to possess it. When you are jealous,

you don't want to have it, you believe that person is not qualified to have it. All of these things are found in the mind. Whatever is negative in the life of any man started in the mind. Poverty, lack, envy, laziness, jealousy all started from the mind. If you are going to conquer all of these things, you must learn how to think right and think positive thoughts. By doing the word, you will overcome all struggles of the mind.

There is a form of sickness that comes to the mind through fear. When you are always thinking about sicknesses, you will be sick. You permit sicknesses by thinking it. There was a time someone was sick, I was privilege to ask the person what was wrong with him. The person told me several diseases and I asked, if he has gone for test? He said no. He said when am feeling like this, I have this; this person counted about five different diseases. The doctor didn't prove these, he was the one that said all of these to himself. I looked at him and had pity on him because he has permitted his mind to create sicknesses for him. Satan has been able to penetrate into his mind. That kind of person need the word of God that will show him there is a way we exercise dominion over sickness through what we say. Whatever wants to affect us and limit us shouldn't be voiced. What you say consistently are what you see eventually. You have to understand this clearly because there is always battle going on in the mind.

Knowledge is weapon of warfare. Thoughts are weapons of warfare. Words are weapon of warfare. All of these are targeted towards your mind. Scientific facts are weapons of warfare. They are targeted towards human mind. Your ability to think through to receive the Word of God that suppresses all negative thoughts is fundamental. The Word of God will always make you win battle in your mind. To win battle in your mind, you need the

following: the word of God which unveils God's promises for your life. Anytime the devil shows you your low state, always show the devil in your mind God's promises to you. Let God's promises fill your mind regularly.

Here is what you need to know about winning battles in your mind regularly. Anytime a negative thought comes to you, you must learn to speak positive things. I'm not an advocate of positive thinking or talking. That could be a form of psychology. I also learn from the word of God that death and life is in the power of the tongue. I'm not a psychologist. Here is it: I believe that the words that we say are powerful. All I want you to understand is that the words that come out of your mouth really matters. Job 6:25 says, "How forcible are right words? But what does your arguing reprove?" Right words are forceful. Those who talk about positive thinking and speaking have been able to see the effect that positive thinking and speaking have on the mind. These things are powerful. Positive thinking and talking affect the mind.

God gave you your mouth to control your mind. Anytime you are weak emotionally, you can use your mouth to strengthen your mind. Use your mouth to put new pictures in your mind. Anytime you discover you are aroused sexually, and everything coming to your mind is to have sexual fun with a lady or a guy who isn't your spouse, you have got to talk to your mind. When you are emotionally weak, the thing you have to do is to rise up and begin to use your mouth. You have to let your talking suppress your thinking. I mean, talk to yourself positive words. What you declare is the Word: say, I am the righteousness of God in Christ Jesus; therefore, I must always do what is righteous. This immorality is not righteous, I refuse to do this. I decide by the power of the Spirit to manifest my right nature. Speaking

that way will conquer emotional issue. You win battle in your mind.

Weapons of battles are knowledge, words and thoughts. When these arrows are shot into you, you need to shoot an arrow back. You don't shoot arrows back by thinking but by talking. You have to open your mouth to say what you want to see and expect to come out of your life. You must know how to shoot arrow with your mouth when things are shot at you. When there is confusion, you must learn to shoot arrow through your mouth.

When poverty is in your mind, learn to send it packing. Beyond the fact that you say right words such as I am rich; I am great. You need to shoot the knowledge into your mind.. Where you get books, messages, attend seminars or conferences where they talk about financial intelligence and empower your mind for prosperity, you are shooting knowledge into your mind.

You must learn to know that battles are in the mind. You have roles to play to win the battles that are in your mind.

YOUR INNER EYE IS IN YOUR MIND

When we talk about the inner eyes, you have one inner eye but have two optical eyes that can be touched. Naturally, you have two optical eyes. You have your left and right eyes but spiritually, you have one eye. Mentally, you have one eye. The inner eye in your mind is your imagination. Your imagination is your inner eye. That is the eye of your mind. That is the eye with which you can visualize things. That is the eye with which you can travel into the future. Your imagination has the power to create. It is the power of creation. Whatever you want to create, you create it in the faculty of your mind that is called imagination. Use your imagination to create the future you desire. Use your imagination to build whatever you wish to build.

Never build anything in the world that you have not built in your imagination. Never do that. Your imagination is in your mind. That is the second fact you need to know. You need to know it so you can use it. What you don't know, you cannot use. Now that you know that your imagination is in your mind, you need to use your imagination.

Learn to visualize things. Whenever you want to meet some-

one to discuss with or have a special meeting with someone; you've got to use your imagination to have the meeting first. Visualize how the meeting should go, visualize you talking, asking questions, and making presentation. You must learn to use your imagination. God gave you your imagination as the place where you do things first before you do things on earth. Don't step out to do anything on earth that you have not stepped out to do in your imagination. Don't start anything on earth that you have not started in your imagination. Don't step out to make a presentation that you have not made in your imagination.

Your imagination is the first place where you must do things. It is the inner eye of your mind. Use it to see things. Your imagination can see clearly than thousands of multitude. Your imagination is not limited to what it can see. You create the limit on your imagination when you decide to stop visualizing.

3

YOUR VISION, PLANS, STRATEGIES ARE IN YOUR MIND

God will not put vision in your spirit. God will put vision or ideas in your mind. Plans: you need to make plans. God will not put plans in your spirit. Plans will come from your mind. You don't strategize through your spirit; you strategize through your mind. Your mind is that machine that empowers the effective plans that ensure the execution of your vision. You don't see vision – what is ahead or what you should do (mental picture) with your spirit, you see with your mind.

Your plans and strategies are products of your mind. Use your mind to think. Planning must always be done properly. As a man once said that “whoever fails to plan is actually planning to fail.” Many are playing without knowing. Planning is the organization of things in the appropriate order that they should be done. Learn to use your mind to make plans and strategize.

YOUR MIND IS THE RECEIVER OF INFORMATION FROM BOTH THE PHYSICAL AND SPIRITUAL WORLD

As you are reading this book now, it is your mind that is talking to you. The words are coming from your spirit but it is directed to your mind. It is with your mind that you will be able to understand what is said. What the physical and spiritual world says to you is received in your mind. It is your mind that will understand. Understanding is found in the mind. You understand things with your mind. You must cultivate the habit of ensuring that whatever you receive from the physical and spiritual world, that you understand it.

There's a clear difference between the language of your spirit and languages of your mind. The languages of your mind are your dialect, tribal or mother's language, lingua franca and so on. You may not understand the language of your spirit until the gift of interpretation is at work. You don't learn the language of your spirit, you only receives it. But you have to learn the language of your mind. You need to learn alphabets and phonetics for your

mind empowerment.

When the spiritual world wants to communicate with you, the communication will be done through the language of your mind. What God speaks are spirits, you only receive it through the language of your mind. The wealth of your mind is dependent on the information in your mind. Your mind is as wealthy as the information there. When you listen to a speaker or preacher, you are listening with your mind. The system of interpretation is resident within your mind.

BELIEVERS ARE NOT TOLD TO CHANGE THEIR LIVES BUT THEIR MIND

You have to change your mind. The way you change your mind is that you use the Word of God. The Word of God is what is used to change your mind. When you change your mind, your life will change. The life within the context is not talking about Zoe but the way you live - your lifestyle. When you change the way you think and see, your lifestyle and habit will change. You need the Word of God to change your life. Let the Word of God influence your mind. It is very important.

Scripture says guard your heart with all diligence for out of it proceeds the issues of life. The issues of your mind are the issues of your life. Your mind is the gateway to your life. Whatever is not accepted in your mind will never be part of your life. What your mind rejects is what your life rejects. Oftentimes, life problems are mind problems. If a problem can be resolved in your mind, it won't be difficult to resolve it in your mind. Nothing can enter your life without the opening of your mind.

Thoughts are things. Things come into your mind through thoughts. What you think in your mind are what you see in your life. You have to enter into your future in your mind before you do in the world. Whatever isn't visible in your mind cannot be physical in your life. You should be able to know what you will become eventually. You will know what you will become eventually if you can identify what your mind thinks on consistently.

You activates your mind by thinking but you sustain and control it by talking to it. Those who tell their mind who and what to think on are the ones that control her. To permit any kind of thoughts in you is to permit any kind of things in your life.

6

ANXIETY, FEAR, DOUBT, UNBELIEF, SORROW AND HAPPINESS ARE ALL IN THE MIND

To be anxious and fearful is a function of the mind. When the bible says God has not given us the spirit of fear – the spirit of fear will not influence your spirit but your mind. Anxiety, doubt, sorrow are in your mind. All of these things are in your mind. If you can conquer them in your mind, you will conquer them in the world. You have to know that anytime you are anxious, that the beginning of all of these is through thoughts – what you are thinking. Fear is what you think. Doubt and unbelief is what you think. Sorrow is what you think. You cannot just be sorrowful without having preceding thought.

It may be that you got angry or think about something you are not pleased with and suddenly you are filled with sorrow. All of these things that I mentioned have their origin in thinking. So whoever has learned to master and dominate his thinking, will always overrule all of these things. The way to overcome all of these things which are function of the mind is to think

right. When you doubt, ensure your mouth say consistently and affirms that these things will happen. That how you nullify and cancel fear.

Anytime you notice that fear is coming to your mind, you must open your mouth and declare that what you fear will not happen to you. That is how you conquer fear. When you begin to worry, think something will not be done or how will something be done, that is anxiety. You must learn to be filled with possibility mentality. You have to boldly affirm what you want to see happen in your life.

YOUR BELIEF AND THINKING IS A FUNCTION OF YOUR MIND

What you believe and think is a function of your mind. You have to think right and positively. Your mind has to agree to something before a belief is formed in your heart. What your mind disagrees with, you cannot believe. Do you realize that both faith and logic operates through your mind. In the scripture, the word heart refers to both your spirit and mind. You just have to understand the context of what is referred to. Logic is what you reason, faith is what you believe. Your mind can both reason and believe. It's those who have mastered how to put their mind into subjection through their words that will overpower their reasoning with their belief.

You should feed your mind with the word of God so much so you can believe all God has said. It's through the word of God that you move away from the thinking realm to the belief realm. A thinker can still doubt, not a believer. You should train your mind to believe whatever God said in His word. It's through God's word that you can identify the right things to believe. Without the word, you will believe many wrong things.

You will end up becoming what you believed. Scripture says that as many as received Him, to them He gave the power to become. What you believe in your mind is what you will become in the world. This is not rhyme but fact. You can't be rich when you don't believe that you are destined to be rich. What you think regularly will end up becoming your belief. What you think daily is gradually forming what you will believe later.

THE LIMIT OF ALL YOU WILL EVER RECEIVE, HAVE, DO, CREATE AND BECOME IN LIFE WILL BE CREATED BY YOUR MIND

You see what God want you to become in life, you may not become it because your mind created the limit. God may want you to get to twenty degrees but your mind may limit you to five degrees. God may want you to get to one hundred and twenty feet but your mind may limit you to thirty feet. Whatsoever you do in life, you can always do more.

The reason you could not do more is because your mind created the limit. Whatever you have in life, you can have more if your mind haven't created the limit for it. When your mind expands and visualizes that you can have more, you will certainly have more. That is one of the reasons you hang with people that know more than you. It is good because people that know more than you will always expand you to become more, do more, have more, grow more. You must hang around people that know more than you. Read to expand yourself because when there is new

knowledge, limit is broken. The way you break limit of the mind is to get new knowledge or think new thought. You become more creative or innovative when you think. These are ways to break the limit found in the human mind.

Any level you think you cannot attain now but you see that is possible for you to attain, the reason you think you cannot attain it is because there is no right knowledge and appropriate way by which you can get there. When you get the knowledge, you will see that you can get there.

YOUR MIND IS ONLY NEEDED HERE ON EARTH

Your mind only functions here. It is needed here. It is not needed in the new heaven and new earth. As a believer you are not going to this present heaven but the new heaven and new earth. Your mind is only needed here on earth. You have to use your mind here. God want you to create many things, build many things, start many things, that is why He gave you your mind to be able to do them.

In the new heaven and new earth, everything has been done. God is everything to you; you don't need to do anything with your mind over there. The only thing you need is just to get there. God gave you your mind on earth, you have to use it. Use your mind to influence your world.

YOUR MIND WAS NOT SAVED AT SALVATION AND YOUR MIND DID NOT CHANGE AT SALVATION

You have to know that salvation is not the end. After you got saved, you need to begin to learn about the kingdom. After salvation, you need to listen to the Word of God. You need to be taught, you need to be equipped. You need to ask questions, the questions have to be answered so you can grow. Your mind was not saved when you were saved. It was your spirit that was saved. So it is knowledge gotten regularly that saves your mind.

Anytime you get to read the scripture or a book, you are trying to save your mind. The salvation of your mind will doesn't require faith but knowledge. The faith of God will not save your mind, that only saves your human spirit. It is the knowledge of God that saves the mind. To reject right knowledge is to reject salvation. Whatever satan can do to you, ignorance can do to you. It takes right knowledge to be delivered from ignorance. Ignorance is a killer and limiter. It's access to right knowledge that will deliver you from it.

The next time you seemed to be confused, just know that you are suffering from knowledge. It's knowledge that delivers your mind. That's why James identified that it's the word of God that will save your soul. And your mind is part of your soul.

YOUR MIND HAS TO DO IT FIRST, BEFORE YOUR BODY CAN DO IT

There are three elements that make up the human soul - the will, the emotion and the mind. However, of the three your mind is the most powerful. Ability to upgrade your mind is upgrading your life. To upgrade your life, just upgrade your mind. If your mind can upgrade, your life will upgrade. The reason you have not built that house is because your mind has not built it. The day your mind build the house; the resources to build it, how to build it will suddenly begin to come your way. Whatever you don't have in life is because your mind has not gotten it. The day you possess it in your mind, right from that day you possess it. Notice that the things you think you are going to get in your mind are the things you get and have easily. Learn to do things in your mind.

SPECIAL NOTES ON THE MIND

1. The mind is so powerful that whatever a man becomes on earth is a function of his mind. The CEO you see in the world today, who made them CEO? Their mind made them CEO not their spirit. You notice that there are many unbelievers that are CEO today that are doing fine. Their spirit was not saved but they are doing fine. What they use is their mind. What made a CEO is his mind. When you see a great tycoon, a great Politicians, great pastors, what made them great is their mind. The greatness of the mind is the greatness of the man. Let your mind be expanded. Let your mind be enlarged with knowledge, new thought, and innovation. Whatever your mind conceives is what you have the ability to achieve. No matter how big it is, whether it exists or not. The reason you have not started achieving it is because sometimes, you don't think you can have it, achieve it. Even you don't believe it. When your belief set in, you will see that everything that is needed will begin to

set in.

2. Everything that is done or built in the world is done or built twice. Every house, car in the world is built twice. They are first built in the mind before it was built in the world. Those things built in factories, done in companies are not just produced in the factories and companies, they were first produced in the mind of someone. What you see produced on earth are reproduction of the things produced in the mind. The real place where the production took place was in the mind. Every other physical place where it was now done is doing reproduction. It has to be completed in the mind before it's done in the world. Never attempt to start something you have not completed in the mind.

3. When you see the way a person appears, that should tell you the state of the mind of that person. A dirty mind will produce a dirty body. People are dirty because their mind is dirty. An excellent mind will produce an excellent body. When you enter a place and see it disorganized, it is not because such person is disorganized, it is because the mind of such is disorganized.

4. Everything you see happening around a person is the reflection of his mind. You don't need to look at the appearance of a person, look at what is happening around that person. You will know the state of that person's mind. Your environment is the revelation of your mind. We will know the state of your mind when we know see your surroundings.

5. You must empower your mind. The things that happens

around or that reflect in your life will communicate the right or wrong message to people about you. Every time, there is something about you that is communicating to the people. You need to equip and empower your mind.

6. Thank God for praying in the spirit. Even when you are praying in the spirit, the most important thing is what comes into mind. The things you understood while you were praying in the spirit are the interpretation of your tongue. They once asked Oral Robert, what is the secret of your life? He said I pray in the spirit much and whatsoever instruction is told to do I do. That is the secret to my advancement in life.

7. When you pray in the spirit for long, be sensitive to the things, thoughts coming to your mind. Thoughts are creative. The things you create in life will come through thought. The vision you want will come through thought. Gone are the days we are expecting spectacular things to open to us, to see some dreams at night when we sleep. We are in the days of increase of knowledge where we are tapping into the potential and power of the mind.

8. All great inventors are people that use their mind. Every great invention in the world came as a result of the use of the mind. As believers, begin to use their mind, the glory of the Lord will be made manifest through our creative works and men will know the Majesty of our God and God will be enthroned.

ACTION PLANS

Ensure that every day, you always have a specific time that you meditate. Using your mind to think, find out the things you should do.

Meditate on the Word of God.

Meditate on how your works should be done. When the bible talked about meditation, it was just on the Word of God alone. Think on your work.

Meditate on your prophecies. Think on the Words God has said to you.

Meditate on your plans regularly. Check your plans. Think! Never sleep at night until are able to think on the things to do the next day. If you just sleep, and wake the next day, you will do anything.

Always use your mind to think. Find out with your mind what to do the next day.
