## Preface

Many years ago, a lady was brought to me. I was told she was sick and had used drugs but the sickness wasn't leaving. I looked at her and by the Spirit of God, I told those who brought her to take her to a room just to lie on the bed and she would be healed. Just as I said, in less than thirty minutes, she slept and woke up after about three hours healed. By the power of God, she was instantly healed.

At another time, another person told me he was sick. I thought of praying and ministering healing to him but was compelled by the Spirit of God to tell him to go rest. In fact, the instruction was direct - tell him to rest. Evidently, the Spirit of God knew that the reason he had that ill feeling of sickness was because he didn't take time to rest. It's so amazing to know that what medicine may not do, rest can do. Even if you use any medicine, you still need to take time to rest. One of the reasons patients are admitted at the hospital is so they can take time to rest. Sometimes, if you don't rest, you will soon be laid to rest.

There was a particular time in my life that I was extremely sick. The sickness was much that my mummy took me to the hospital. I was an undergraduate at the University that time. I remember a particular night that I was rushed to the hospital. I used prescribed drugs but the feelings and sickness didn't just leave. I prayed but it didn't just go. I spoke in faith but the same ailment remained there. At a time, faith almost became a theory that didn't work to me. It was later I got to understand many things about healing process. It was later I got to know that even though I was healed, the type of ailment I had required gradual healing. Eventually, I became healed and healthy today. Looking back today after many years, I discover that it pays to be enlightened because many other things have happened to me but the knowledge I have gotten kept me on track.

I write this book so you can understand that God created many channels and streams to bring healing to you. If you understand this healing streams, you will be able to know what God has provided for your healing.

Preachers and teachers need to learn this so they will not teach the people about only one or two streams of healing. Medical experts need to learn this so they can be aware about other streams. Well, I believe that in a way, medical practitioners are taught many of these in school but they are not

taught all. Psychologists need to learn this so they won't be limited to their field alone.

All I shared in this book are God's healing streams. None of it is created by man, human only discover it. All believers and ministers need to be equipped with these streams so they can administer it to those who need it. I want you to really take time to study this book so you can enjoy the rich wealth of healing God had made available unto us.

# I

## Part One

## The Origin of Sicknesses and Diseases

**K**nowledge keep increasing in our world. Scientific and medical research are countless. Medical experts and scientific exponents keep finding out the origin of certain diseases and sicknesses and also attempt to regularly find the cure for it. In a sense, certain researches and findings have been successful. What is needed now is the cure to many of diseases out there.

Man as a knowledge entity has the intrinsic desire to always find out the origin of everything, but often, man come up with false fact. Though, many facts are false, yet believers should not despise all medical facts. It's just on the faith lane a believer can be counseled to despise a medical report. A believer should know that God's report is superior to a doctor's report. Believers need to know that the scripture is the basis for all we are and do.

For us to access God's thought - God's views

and perspectives - about a matter, we will need to always check the scripture. The scripture unveils God's mind to us concerning all matters. Reading through the scripture, we may not be able to see or trace the origin of sicknesses or diseases on the surface level. In other words, you may not see a place where it's written that this is the origin of sicknesses or diseases. But when we receive clear insight into scriptures, we will be able to see vividly how sicknesses and diseases came into the world.

There is the notion that sicknesses and diseases came into the world because of the sin of man or fall of man. The assumption was that the fall of man gave access to sicknesses and diseases. On this premise, it's assumed that sicknesses and diseases got legal authorization to function in human body because of sin. Well, I have a different view and insight into all these. All the spiritual books I have read proved that sin was the origin of sin but I have a different view.

There are two reasons we must not agree that it was the fall of man that brought about sicknesses and diseases.

## FIRST REASON

Animals also have sicknesses and diseases. Someone may say but animals are not created in God's image, so, why do we compare animal to man? Well,

that's true but you need to understand that the body of man and animals came out of the earth and is flesh.

The systems at work in man such as respiratory system, digestive system, etc. are also found in animals. Scripture reveals that the body of both man and animals came from the earth. It's only the spirit of man that came out of God. In other words, breath is what came out of God into man at creation.

All animals have flesh and they suffer from one sickness, disease and so on. Regardless of the location - be it in the sea, land, air, forest - animals will always be sick and have diseases. As a matter of fact, it's proven that certain diseases that invaded human and killed many people came from animals. In fact, certain research proved that some diseases animals can keep and sustain for ten years, human may not be able to keep and sustain for six months. And it's also proven that certain diseases humans can sustain in their body for five years, an animal may not sustain for five hours.

What's then is the similarities between human body and animal body? There's a power built into the body system to receive or reject things. For man to contract a disease, it can come through sexual intercourse, touch, environmental contact, etc.

The point is that animals do not sin or fall, yet they suffer sicknesses and diseases. It's obvious that

the sin of man couldn't have been responsible for sicknesses and diseases of animals. If the sin of man wasn't responsible for the sicknesses of animals, then, the sin of mankind wasn't responsible for the entrance of diseases and sicknesses into human body.

## SECOND REASON

Anyone in Christ is a new creation. As long as you are in Christ, you are saved. Therefore, the effects of sin and fall of man has been cancelled on you. A believer isn't just redeemed but recreated. The new creation isn't a person that is forgiven his sin but a specie that never sinned before. As a believer, when you got saved, you are not just seen as one whose sins are forgiven but someone who has never sinned before.

Since a believer has no sin issue, it therefore means that a believer should not be sick or diseased. As long as God doesn't see a believer as a sinner, it means when a believer is sick, something else (not sin) is responsible for it.

Scripture is clear about believers and even ministers of God who were sick. Philippians 2:25-27 reveals that Epaphroditus was sick almost unto death. This man was a minister of God, yet sick. If someone like Epaphroditus was sick almost unto death, it means it wasn't sin or the fall of man that

gave access to the sickness. This man was a new creation on Christ and also the righteousness of God in Christ, yet sick. Just like this man, there are several believers who are sick.

2 Timothy 4:20 says "... but Trophimus, I have left in Miletus sick." Here was Paul addressing Timothy. The same Paul who had healed many people and even performed unusual miracles through handkerchief and aprons, yet didn't get Trophimus healed immediately. The reason for such wasn't known but we know he left Trophimus sick. I kept asking, why would Paul leave Trophimus sick and not get him healed? It was this aspect that enlightened me that the ministers aren't the healers, they are just vessels. God is the healer. Trophimus was a believer and you can't say it was sin that gave sicknesses entrance to his body.

I hope you know that man before his fall is exactly like the new creation without sin. If a man in Christ that's without sin can be sick on earth, that is a sign that even without the sin or fall of Adam, there would still be sicknesses and diseases. I know some people may disagree with me but the point I want you to get is that without sin, sicknesses and diseases will be in the world.

## UNDERSTANDING MAN

There's a theology that reveals that God is Triune

and man is tripartite. The Triune nature of God shows that He is Three-One (Three separate Entity, yet One). God as Triune is the Father, Son and Holy Spirit. This is what brought about the doctrine of Trinity. The New Testament light shows us that Jesus is the fullness of the Godhead bodily. In other words, in Christ Jesus is the Presence and dwellings of the Father, Son and Holy Spirit.

The reason Holy is always before Spirit is because there are many spirits but His Spirit is distinguished. There are angelic spirits, human spirits, evil spirits, etc. All other spirits are created but the Holy Spirit is the only Spirit not created. God's Spirit is holy; your spirit is human.

Jesus said My Father and I are One. When Jesus walked through the earth, it was the Triune God walking on earth. Man has always been referred to as a tripartite being but this is not true. The assumption was that since man was created in the image and likeness of God he must be Triune too. But this is not correct.

1 Thessalonians 5:23 says "... may your spirit, soul and body be preserved blameless at the coming of the Lord Jesus Christ."

We often hear that man is a spirit, soul and body. Some others said man is a spirit that has a soul and lives in a body. Well, my focus isn't to define man. My focus is to show you something about man that

brought sicknesses and diseases.

Why man isn't a tripartite being is because the soul of man isn't a man. The soul is like a machine or software that helps man to be able to relate information received from both the spiritual and physical world. To God, the real man is the human spirit but to men, man is a human body. This understanding will cause you to see how Paul relates the inner man to the outward man. The human spirit is the inner man while the human body is the outward man. Since, we know the inner man and outward man, what then shall we call the soul?

When a person dies, you can see, touch, carry his body but his spirit has walked out of the body. The spirit that walked out is the real man. It's the absence of that in the body that makes the man dead. The corpse (dead body) on the ground is just the container or carrier of the human spirit. So, when God wants to touch a man, he touches his spirit but when men wants to touch a man, they touch his body.

## CAN THE SPIRIT OF MAN BE SICK?

Have you heard or seen people who wants to deal with spiritual sicknesses? I have heard those who claimed they were sick spiritually. Well, I really understand what they were trying to communicate. But there's nothing like spiritual sickness for your

spirit cannot be sick. The spirit of man cannot be sick or diseased. That's the fact. Even when we talk about spiritual death, it doesn't mean that the spirit is dead but that there's separation. Spiritual death mean human spirit is separated from God.

All unbelievers are dead spiritually but their spirit man is not dead. If their spirit really died, they would not be alive. James 2:26 says "for as the body without the spirit is dead." Definitely, the spirit of an unbeliever is within him, it's just that he's not alive to God.

Certain facts should be established about spirits - angels, humans and devils. It should be established that spirits don't die. All kinds of spirit are neither sick nor diseased. When a person dies, the spirit didn't die, the spirit only walked out of the body. The human spirit that walked out of the body cannot be sick or diseased. The body and heart (mind) of a person can be sick but not his spirit. When you see a sick person in a bed in the hospital, it's either the body or mind of the person is sick or diseased. The spirit of a patient isn't sick, it's their body or mind that is sick. Many lunatics at psychiatric hospital are only sick in their mind.

The only thing God does for the human spirit is to recreate him into a new creation. Your spirit can never be sick. No disease in the world can affect your spirit. Whether you are a believer or unbeliever, it

doesn't matter - your spirit can never be sick. The difference is that the spirit of a believer is alive to God but that of an unbeliever is dead to God.

#### WHY A MAN CAN BE SICK OR HAVE DISEASE!

The penetration of sicknesses or diseases has nothing to do with the sin of mankind or fall of man. If man did not sin or fall, some people would still be sick and diseased. Mankind is not sick because they sinned or fell but because they are flesh. If man doesn't have flesh (body), there won't be anything like sicknesses or diseases. What doctors treat is the body not the spirit. Demonic forces and evil spirits can afflict a body with sicknesses but not human spirit.

I was enlightened to know that Satan isn't powerful enough to make human spirit sick. It has been established that both human and animal always suffer from sicknesses and diseases.

1 Cor. 15:39 says "All flesh is not the same flesh, but there's one kind of flesh of man, another flesh of animals, another of fish and another of birds." The fact is that flesh either the body of man or animal is susceptible to sicknesses. Fish in the sea gets sick and diseased so also with birds. Animals of different kinds are sick and have their diseases too. Students who study vet medicine are empowered to treat animals. Vet doctors treat the flesh of animals.

I hope you know that kidney or heart failure is a function of the body. Surgeries carried out on a patient is a function of the body.

1 Cor. 15:47 says “the first man was of the earth made of dust; the second man is the Lord from heaven.” All sicknesses and diseases are of the earth. Some have been discovered and more shall be discovered. That’s why you notice that the source of all medicine are from the earth - through plants. The first man Adam came from the dust. In other words, the flesh of man came from the dust. The fact is that whatever comes from the earth can be sick and diseased. The fish, birds and animals can be sick because they are from the dust too. They don’t need to commit any sin to be sick. The dust is a substance that is feeble, so it can be ill.

Since man is from the dust, he doesn’t need to commit any sin to be sick or diseased. As long as he has a body of flesh, he can be sick. Obviously, you can see that even if Adam and Eve didn’t sin, there would still be sicknesses for their body came out of a substance that is weak and can decay. The reason a believer who has the life and spirit of God in him can be sick is because he still dwells in the human body. Yes, it’s possible for a believer not to be sick. This happens when such believer has the revelation that he has dominion over all sicknesses. A believer is not sick because he sinned but for the fact that he

puts on flesh as his human body. I hope you know that at salvation, your mind and body didn't change. Yes, a believer is a new creation in Christ but also a spirit in the human body (human flesh).

## A QUESTION TO ANSWER

One time, I asked myself, why are some unbelievers healthy and some believers sick. There are many unbelievers whose body system remain healthy. In fact, when they get tired and take a little rest, they suddenly get stronger again. Yet, there are believers who are regularly sick. The question in my heart is that if sin was actually the cause of sicknesses and diseases, and these unbelievers are not yet saved, why are they not tormented with sicknesses in their body? After all, they are not yet saved and are still under the yoke of the old man, yet, they are not sick but remain healthy. If you don't believe this, then, consider the next insight.

There are many villagers who are really healthy. They are not saved, yet healthy. There are places the gospel hasn't reached, yet the people there seems to be free from sicknesses. I question that since they are not saved, why are they not having sicknesses consistently? If the assumption is that believers have been delivered from oppression and results of sin which is assumed to sicknesses and diseases, the question then is why are these villagers who are not

saved not suffering from sicknesses? As long as you are fleshy, you are susceptible to sicknesses.

The privilege we have is that a believer can operate superior law which comes by faith. Through faith, a believer will overpower sicknesses. If you are a believer and sickness linger long in your body, you permitted it. The day you get angry in your spirit against that sickness or disease, you will chase it out of your body. Your body is the temple of the Holy Spirit. So, whatever isn't part of the Holy Spirit should not be part of your body. As a believer, you have two advantage which are knowledge and faith. With the knowledge of what God wants for your health and your faith, you will live a sick free life and receive your healing whenever any issue come up.

## WHY JESUS NEVER FELL SICK

John 3:31 says "He who comes from above is above all; he who is of the earth is earthly and speaks of the earth. He who comes from heaven is above all."

The only man that had a different human body was Jesus. He was the only One whose body was earthly. His body was from beneath so that freed it from all form of sicknesses. Jesus had a sickness resistant body. His body alone can resist all form of sicknesses.

1 Cor. 15:47 says "... The second man is the Lord

from heaven.” His body didn’t come from the earth. Even though He puts on flesh, yet it’s obvious that His body was different. There was no way sicknesses or diseases could penetrate into His body.

John 4:6 reveals that Jesus was wearied from His journey, He was never sick.

Every man is a product of a sperm released as seed into a woman but Jesus was different. No human sperm seed was released to Mary to conceive Jesus; it was the Holy Spirit that impregnated Mary. It’s sound illogical but that’s real. Since it wasn’t human sperm that produced Jesus’ body, that makes him different from every other one.

The reason sicknesses could enter other human body was because they are offspring of another body. It’s dust reproducing itself. The privilege we have as Christians is that we can manipulate the human flesh by faith to respond to our wish.

## A BELIEVER SHOULD BE CONSCIOUS OF WHO HE IS

1 Cor. 15:48-49 says “As was the man of dust, so also are those who are made of dust and as the heavenly Man so also are those who are heavenly. And as we have borne the image of the man of dust; we shall also bear the image of the heavenly Man.”

Everyone born of woman apart from Jesus bore the image of dust. They have in their body system

the substance and object of dust. Those who belong here can be ill or diseased. The reason for such is that they are made of dust. Your flesh (body) is made of dust. Isn't it funny to see that all kinds of sicknesses and diseases have been discovered from this dust. This body of dust can be attacked with fever, cold, headache, hypertension, kidney failure, HIV, diabetes, cancer, catarrh, etc. Beyond these, there are other chronic illness like tumor in the brain, etc. In our world, you get to hear all kinds of sicknesses and diseases. All kinds of names have been given to these diseases. The treatment of many of these diseases and sicknesses are highly expensive. Daily, human develop one disease and sickness after the other.

The escape route for believers is that they now have the image of the heavenly Man. Some Bible translation describe it as an event that will happen in future but in reality, it has happened. You are not waiting to bear the image of the heavenly Man, you have it already. As long as you have put on the image of the heavenly, you can suppress sicknesses and diseases. In other words, you must lay hold on the revelation that just as sicknesses and diseases couldn't enter Jesus' body, so it is with you.

## CASES OF SICKNESSES THAT COULDN'T BE HEALED MEDICALLY IN THE BIBLE

1. Ahaziah - 2 Kings 1:2
2. Hezekiah - Isaiah 38:1
3. The servant of the centurion - Luke 7:2,5
4. The issue of blood - Luke 8:43
5. Asa - 2 Chron. 16:12

## CASES OF SICKNESSES THAT LED TO DEATH IN THE BIBLE

1. The son of the widow of Zarephat
2. The first son of Beersheba
3. Elisha the prophet
4. Lazarus
5. Dorcas

## GOD WANTS THE SICK HEALED

It's God's will for the sick to be healed. Regardless of your sickness or disease, God wants you healed. It's not God's plan for anyone to die through sickness or disease. Do you know that as a believer God doesn't want you to die early? Yes! He wants you to live long and live strong. He wants you to still remain on earth so you can be a blessing to many others. Anyone who's sick shouldn't think God may not be willing to heal them. No! God is more than willing. God is not happy when you are sick. Yes! Let me say it again. God is not happy when you are sick. Your sickness can't bring glory to Him, it's your healing and health that can bring glory to Him. If

God wants you sick, He would have created sickness with you. God doesn't want you sick; He wants you healthy.

There are many sick people who are ignorant of certain truth. You will hear them pray in their sick state, "God, don't kill me like this." Well, as a believer, you should not believe God can kill you with sicknesses. How do you expect Him to kill you with sicknesses? God isn't wicked but kind. Whatever your case or sickness is, simply tell God to heal you rather than telling Him not to kill you with sicknesses. Even if the sickness came as a result of your action, God's mercy can always heal you.

You need to understand that doctors are not healers but experts. They are only functioning based on the knowledge they have acquired. God is the healer. Doctors give medical care but God gives medical cure. People can care for you, God is the one who cares and cures people. If you have prayed, used medicine, received all kinds of treatments but the sickness isn't going, I wouldn't want you to get to a point that you think God isn't willing to heal you. God is always willing to heal and you have to set your mind right that regardless of your sickness or disease, God is willing to heal and cure you.

Many years ago, I was very sick. It lingered for months and thoughts of death came to my heart consistently. It was as though I was going to die

but I knew within me that I wouldn't die early. A revelation I got from scripture informed me that Stephen was stoned and he died. At the same time, it's revealed to me that Paul was also stoned but didn't die. I got to know that when Stephen was stoned, he said Jesus should receive his spirit but Paul didn't say that. That revelation taught me that I shouldn't die anyhow but die when I want to die. If I didn't say I will die regardless of the situation, I won't die. From the time it was revealed to me, I began to declare with my mouth that I will not die but live. Anytime the thought of death comes to my heart, I would boldly declare with my mouth that I shall not die. And eventually, years later, I am still alive.

I have discovered that it wasn't sickness or disease that killed some people, it was the fear of death that killed them. Fear comes as thought, that's why anytime fear begins to rise within your heart, you mustn't be silent but be loud. You don't think the thought of death but begin to say with your mouth that you shall not die. Every time you permit the thought of death to take over your heart, fear will be kindled. Fear is a force. The moment fear takes over; it will force your spirit to get out of your body. It's with the words of your mouth that you conquer fear. It's also with the convincing thoughts of your heart that no death shall befall you that you conquer

fear.

Regardless of your state of ailment, I want you to believe that God can heal you and he will heal you. God is ever ready to heal you. You should boldly receive your healings from the Lord. God is ever ready to heal you if you sustain your belief.

## THE BIG DEAL ABOUT SICKNESSES AND DISEASES

It's essential to know that sicknesses and diseases didn't come into human lives because they sinned but for the fact that they are human fleshy body. Sin isn't the equation in the sickness issues. The big deal is the fact that on account of the sin of man, Satan was able to use sickness and diseases to oppress man. It's the fall of man that gave Satan the legal right to use sickness as a weapon of torment for man. Jesus went about healing all who were oppressed by the devil. Those people were oppressed by the devil because Satan had legal right to attack and oppress anyone separate from God. The sin of man separated man from God and so, Satan then have access to man. All believers have been reconciled to God now and therefore, Satan has no right to oppress any believer

## INSTANT HEALING AND GRADUAL HEALING

You have to understand that certain healing will

not be instant but gradual. Most times, healings that deal with the outward part of the body can be instant but most often, healing that deal with the internal organs of the body are gradual.

Blindness, deafness, lameness may be healed instantly, but certain healing may take time to be healed. This is what many sick who tend to think God isn't willing to healed them needs to understand. There are certain ailments that requires gradual healing. If you have prayed for healing, then, believe that you have received it. You now have to put your faith to work by believing that you are healed and speaking that you are healed. Your healing may require gradual process but if you utter a contradictory word, you have indirectly cut off your healing.

The sickness I told you about didn't get healed the following day. I have heard people shared testimonies of how they got healed instantly but in my case, it wasn't so. It took more than three months for the whole healing process to be complete. But one thing I did was to certainly believe that I have been healed from the time I prayed to God. Many people lost the healing they received in the spirit realm because of their words. You might have been healed and you still feel the pain you used to feel. The moment that happened, you've got to boldly declare that you have been healed and nothing

can affect your healing. There's a part of faith that requires consistent believing and speaking. Either your healing is instant or gradual, the moment the thought or revelation comes to your heart that you are healed, boldly believe it. Gradual healing is about your body responding to the real healing that has taken place. You aren't healed gradually; you are healed already. It's your body that's responding gradually.

## TWO HEMISPHERES OF HEALING

The two hemispheres of healing are:

### **1. The healing of the mind (heart)**

Proverbs 13:12 reveals that hope deferred make the heart sick. The heart there can also be referred to the mind. Evidently, the mind (heart) of a person can be sick. Many mentally deformed people have sick mind. If you visit a psychiatric hospital, you will see many sick patients there. It's amazing to know that there's nothing wrong with their body but everything is wrong with their mind. A person with a healthy body but sick mind is worse than a person with a sick body but healthy mind.

Some people believe that a sick mind can't be treated in the hospital, only a sick brain can be treated. It's believed that psychiatrists treat the brain while psychologists treat the mind. This insight

reveals to us that there's a difference between the mind and brain. The brain can be touched with hands but not the mind. You use words to touch the mind. Your mind is within your brain. If the brain can be touched with human hands, as we know that psychiatrists do touch it, then, the brain is part of human body.

The damage of the human brain will always need the healing of the body and mind. Your brain is a combination of your body and mind. When a defect occurs in the human brain, it affects the mind and body. The sickness of the brain is a combination of the sickness of the mind and body. So, a sick brain needs both healing of the body and mind. I want you to know that your mind can be healed. One of the instrument of healing of the mind is joy. A joyful heart can never be sick.

Anyone who has mind or heart sickness can never think straight. Anyone who is sorrowful will end up having the sickness of the mind. Anyone who's thoughts are always disordered need healing of the mind. Sometimes, what may be required for a mind healing may be rest or sleep. This book is written so you can know what's needed for your healing process.

Jesus went about healing all who were oppressed by the devil for God was with Him. There are those oppressed mentally not bodily. When a person is

oppressed in the mind, all kind of unrest and thought disorder are found in such mind. Jesus doesn't only heal the body; He can also heal the mind. One of the power of God's word is that it can heal the mind. Many who are mentally afflicted need to develop appetite of God's word. Damages in the mind can only be corrected by the word - that's why psychologists don't give injection, they inject words. Just like drugs, injections substance has powerful chemicals that can suppress any form of sickness or pain, so also, words contain chemicals that can suppress damages in the mind. That's why you should be mindful of what you hear.

God's word is powerful because it contains God's chemicals and whatever sickness or deformity that collide with that chemical will surely be destroyed. You will never know the healing power that comes through the word of God until you experience it. Scripture reveals He sent His word and it healed them. What comes to the mind of many is just the healing of the body but it's more than that. God's word can heal your mind. When you receive the word of God, your wounded mind can always be healed.

Many years ago, I found myself in a situation I didn't like. It was a matter of failure. It was as though I had failed and wouldn't amount to anything in life. It was quite painful and shameful. I felt ashamed that

I failed. You know hope deferred makes the heart sick. I was heavily sick in my mind and discouraged. I seemed not to believe any future would be bright. Friends mocked me, church members of the church I was in those years mocked me, I was even used as an example in major conversation. The thought of my failure made my heart sick. I couldn't get to certain places again because of the shame. It was painful. I lost the courage to be in certain places. The only place I could be was the place of prayers. One day, I read the scripture in Isaiah 61:7 that says, instead of your shame, you shall have double honor. Instantly, my understanding was opened to see that I would end up in double honor. From that time, I started declaring I would have double honor instead of shame. I kept declaring that and believing that. From that time, my failure didn't matter again. My mind was healed by that word because I saw that my situation would still change into double honor. Without visiting any psychologist, that was how my mind was healed.

If you also can get into the word of God, your mind would be healed. There is a word that can be revealed to you in scripture that if believed long enough can make your mind healthy again. You can be healed by the word. Refuse to permit mind sickness. The moment you get that word, a chemical that will destroy the dullness and sickness

of your mind is released instantly. You've got to be acquainted with the word and you will see how your mind will be restored by the power of God. If you can think on the word of god regularly, your heart cannot be sick.

Hope deferred makes the heart sick, hope restored makes the heart healed. It takes the word of God to restore your hope. Also, it takes miracles to restore hopes too. Any time your hope isn't met, don't be discouraged to pray. If you have prayed before, pray again. You must do everything to keep your hope alive. When your hope is alive, your heart is healthy. Receive the word, expect miracles and you will be surprised by God.

## **2. The healing of the body**

The body contains the internal organs and external parts. Regardless of the ailment, you can be healed. There's no sickness that can't be healed neither is there any disease that can't be cured. Medical experts may not yet discover the cure for the disease but God has the power to cure it. Nobody should believe the opinion that some diseases are incurable. That's a medical opinion. But from God's perspective, all sicknesses and diseases are curable. God has the power to cure incurable diseases. Medical experts may not yet discover the cure but God has the power to cure. There are many

people with HIV/AIDS whose diseases have been cured. Yet, medical experts are only able to discover how to manage it. God doesn't want you to believe that some diseases are incurable. You should believe that all sicknesses can be healed and all diseases are curable. You can't receive healings until you believe that all sicknesses and diseases are curable.

Internal wounds and damages can be healed. Whatever is damaged inside your body can be healed. You must never get to a point where you believe that nothing can be healed. No! Whatever your condition is, you can be healed. Don't believe the report that you have a disease that can't be healed. No! God didn't say that to you, a man only gave you such report. Your creator didn't create your body with the inability to be healed. Do you know that being aware of a disease or virus can kill faster than having the disease or virus? That's why there are many people with certain deadly diseases and virus in their body, but because they aren't aware yet, they are fine. If you are already aware of what the doctor said about your health, why don't you also get to be informed about what God is saying about your health?

Do you know that God knew that your body can be sick or diseased? Yes, God knows! If he didn't know, he won't create the healing process. If he didn't know, he won't give the wisdom and

intelligence to medical experts to care for your health. God knows about this, that's why he created the healing gifts and anointing. I want you to know that God knew that you came out of a substance that is not eternal but mortal, so, it can be damaged but also repackaged. Your body can be repackaged if damaged. A fracture can be healed. Even when a leg or hand is amputated, there's a way such can be replaced. I have seen creative miracles that made legs grow out. Dead kidneys have been replaced miraculously with brand new ones. I have seen fibroids melt within the stomach and destroyed without surgery. It's all depend on what you believe. What you believe is what you receive.

I need you to know that God created your body with the ability to heal itself. Yes, your body can heal itself with time. The reason medicines are taken is to overpower such ailment so it won't get out of hand and can heal faster. In fact, certain treatments are the reason for many heal deformity. Regular treatment often leads to another ailment or issues. If all that happens to you requires treatment, you can't last. In fact, you can't live long. You need to embrace faith - the believe that you will be fine - more than treatment. If you are patient, you may not be a patient. In other words, if you believe that your pain will alleviate itself with time and you sustain speaking words of faith into your body, you won't

need to visit hospital.

Your body can respond to the words of your mouth. The greatest medicine you can take isn't the drugs you bought but the word of God you continue speaking to your body. Your body will always be obedient to what you tell it. What you don't tell your body, it can't do. I hope you know that there were blind people Jesus healed by talking to them to receive their sight. Let me tell you this - you can talk to your kidneys. If you are sick, it's because you are too silent. You talk your pain more than you talk your healings. Your talk about your body pain more than you talk to your body pains. If you have fast heartbeat or palpitations, open your mouth wide and talk to that heart beats. Tell it to become normal. If your bones are weak, talk to your bones to receive strength. Any time you notice abnormal changes in your skin, simply talk to it to become normal. Drugs release healing chemicals, the words of your mouth too can release healing chemicals. If you are feeling some pains in your body, command whatever is creating the pains to get out in Jesus' name. You are the first doctor of your body, therefore treat your body ailments with your words. Learn to command your body to live according to your wish.

If you have a disease in your body, you can open your mouth wide to command that disease to get out of your body. This thing works. It looks

like psychology but it's spiritual. You can talk to cancer in your body to dry off and get out. Tell hypertension to be over. Command fear and tension to get out of your body. You either reject or accept. What you don't reject, you end up accepting. Command blood clots to be over.

Here is the insight I want you to get, as you begin to talk to your body, you will begin to understand the actions to take to get rid of that disease. Learn to use words to kill diseases in your body. Take over your body through your words.

Do you know that your body isn't only young, strong and healthy through what you eat but also through what you say? If you are eating well but speaking wrongly, your body will be affected. It's not only the food that regulates your body but also the words you speak. Always bear in mind that I said words release chemicals into your body system. If you want to remain young, speak words that will keep you young. Every time you speak about your body, you are either destroying it or instructing it. If you regularly say you are sick, you are instructing your body to produce what will make you sick. Tell your body you will still be walking strong at old age. Tell it that it will still be strong at one hundred. Your body parts can hear what you say. If you say it long enough, it will obey you.

## II

# Natural Streams

## 1. Water

**W**ater isn't created to quench your thirst alone. The only thing many people know about water is to quench thirst. In fact, many are so ignorant about water that they won't drink it until they are thirsty. Many fainting are results of dehydration. A person who doesn't drink water consistently is indirectly doing damage to his health.

The first element created by God for living, healing and health is water. Without food, you may live for twenty-one days but not without water. It's essential to know that water keep you healthy and works healing. Many keep praying for healing when all they need to do regularly is to drink water. When the devil wants to really affect you with sicknesses, he will operate in the area you are highly ignorant. It's ignorance that makes you not to value drinking water. It's funny to discover that many use more water to wash their clothes, take their bath but drink less water. Why waste water on your external body through bath when you are not willing to drink it?

There are sicknesses that are product of less water. I discovered the power of water through the revelation of the Holy Spirit. In other words, I didn't read about the power of water through books neither did I hear about it, the Holy Spirit enlightened me about it.

Many years ago, I was in the city of Ijebu Ode and suddenly became sick. I had some form of headaches and was very ill. In the past, I had always used drugs but that season was a time I began to grow in faith. In fact, the series we were treating in church was building capacity and was intentional to build my faith capacity. When the sickness came, I said to myself I was not going to use any medicine. So, I just believed that my faith has healed me. I began to declare God's word over my health and just believed that I had received my healing.

One night, I began to feel all kinds of pain in my body and couldn't just fathom what was happening. The only thing I knew was that I would be all right. I believed I won't die that night. I kept declaring God's word silently as I couldn't shout out. I was silently declaring I shall not die but live. I also declared I am healed by the Lord. As the pain increased, I also increased my thinking and speaking God's word. Suddenly, the Holy Spirit took over me and instructed me to drink water. I heard His voice distinctly silently said to me "take water and drink

water.” It came as a thought but I knew it was the Holy Spirit speaking to me. That’s how you will hear His voice too. His voice is always like a thought in your heart. So, I drank a cup of water and dropped the cup. The Holy Spirit spoke to me again, “take two more cup of water.” I yielded and did exactly. Within ten minutes, I drank three cups of water. After about twenty minutes, my body felt okay and the pain left.

I learned certain lessons that day. Though I wasn’t thirsty, yet I drank three cups of water. It was that night I discovered that sickness may not make you feel thirsty. I took the water and got on bed and while meditating, the Spirit of God enlightened me about drinking enough water and never assume that drinking water is for the thirsty or only after eating. The Holy Spirit reminded me an incident that happened about five years before that time. I was at a mentor’s place one Sunday and was called by a dear brother that a brother had been admitted to the hospital. I told the mentor who happened to be a nurse at the same hospital the brother was admitted. My mentor decided to follow me to the hospital to check this brother. On getting there, I saw this brother on bed receiving normal saline dosage (the traditionalist refer to it as water). The nurse told us that he had been given two before we came and he was receiving the third one. I

looked under the bed and saw about seven others he would still receive. I was blown away. The Spirit of God used that incident to teach me a lesson. The traditionalists or medical illiterate will always refer to normal saline dosage as water. In other words, if a medical illiterate visits a patient in hospital who's given normal saline and the person wants to tell another what the patient is given, he would say the patient is receiving water. By the Spirit of God, it came to me that even doctors and nurses give water (normal saline) to the sick as first treatment. Instantly, the Spirit of God flashed the picture of the other seven normal saline I saw under the bed and that communicated to me that I needed to still drink more water. I did and within three day I was healed.

The following week after my experience, I phoned a lady who happened to be a friend and doctor to greet her. I narrated my experience and she told me that normal saline is over 80% water. I was blown away. She said that thing contained higher percentage of water. She told me that anyone that drinks water regularly may not be sick. In fact, she told me that anyone who drinks water regularly may not have malaria because whatever should have accumulated to form the malaria would have been flushed out. From that time, I take drinking water seriously. In fact, any time my body wants to act somehow, I take it as a warning that I don't drink

enough water and will immediately start drinking enough water.

About five months after my experience, I went to a meeting to preach. Actually, I used to teach some teenagers God's word every Friday that year. On this particular day, I was teaching and a young man came in. The young man just completed his SSCE that day. He came in weak and after few minutes began to shake. He was really feeling cold and having headaches at the same time. I looked at him and wanted to pray, suddenly, I remember the lessons I got on water. I told those guys what this person need isn't prayer but water. I gave them money and they went to get him water. This young man drank the water and in less than thirty minutes, he became strong. He was the one who collected my Bible and accompany me with his friend out of the church. That young man also knew the power of water that day. Many people who are praying for healing don't need to pray, they only need water.

Sometimes ago, I heard a notable minister said he used to have headaches consistently and went to the hospital for checkup but they couldn't see anything wrong with his body. He said the headache persisted and couldn't figure out what was wrong. He said he started praying and the Holy Spirit said to him "water, water, drink water." He further explained that the Holy Spirit enlightened him that he needed

to drink water more. He said right from the time he began taking enough water, the headache stopped.

Let me tell you this secret - most headaches are due to short intake of water. You can't take enough water and suffer headaches regularly. You must take enough water early in the morning or whenever you feel like drinking it. Avoid short intake of water.

It's amazing to know that many will drink all kinds of beverages and wine but won't take water. You have to understand that you should take much water than all these. Wine is water to many. That's pretty bad.

Many play with their health due to fasting. Fasting is abstinence from food not water. You can take water when fasting. In fact, you should take water when fasting. Many patriarchs in faith died due to dehydration. Recently, a minister and his wife visited me and they told me the situation of the husband's health. As I perceived, I saw noticed that the minister was weak. The wife told me they rushed him to hospital some days before and was give four normal saline. The reason for such was because of short intake of water. How will your body be all right when you failed to take water? Refusing to take water is killing your body without knowing. Your body needs water to survived. Do you know that in order to flush out some dirt out of your body, you may need to avoid taken food for about two to

three days and just take more water? This is even recommended medically.

If you are sick and you really want to be healed, ensure you take much water. In fact, there are diseases that water can fight. Ensure you take water regularly and you will be surprised to see how healthy you will be.

Lastly, you should avoid drinking dirty water. A man who doesn't drink water and a man who drinks dirty water will have the same outcome. Water doesn't kill; dirty water kills.

## 2. Good Nutrition

**F**ood is a stream of healing. There are certain kinds of food that you can take that will get energy and strength into your body system. That's the reason you shouldn't be poor. Being rich has a way of empowering you to get the kind of food that will strengthen your body. Those who eat well live well. There are people who need to learn about balance diet. You are what you eat.

Fruits are essential part of good nutrition. The reason some people have certain taste in their mouth is because they don't take some fruits. Fruits are essential to the recovering of health and sustainability of health.

For those who buy foods at restaurants, ensure you eat at places that are hygienic. Never eat in places where you perceive the cook aren't neat or decent. What gets into your body can release health or sickness. Watch what you eat and where you eat.

Many people need to learn about varieties of food. Eating well doesn't mean that you eat in quantities

but to eat what will add to your health. Health is wealth.

### 3. Exercise

The other day, someone talks about blood clotting. Actually, blood clotting happens because people don't exercise. That's why even sick people are given certain drugs to avoid blood clotting. God created the system of exercise for healing and health. It's through exercise that you release inner power into your body.

The other day I was told about some who couldn't walk. I visited the person, ministered healing to that person and he began to walk instantly. The following day, I spoke with the wife of the man and she told me that a physiotherapist was called to take over the other processes. When I was told, I was very happy to hear that because she has been able to combine the power of God with the wisdom of God. I thought to myself, we need wise women like this woman. The woman knew that the power of God handled the instant healing process but the wisdom of God handled the gradual healing process. You must take exercise seriously and know that it's

designed to increase your healing process.

Do you know that high cholesterol in the body is often a result of lack of exercise? When you exercise your body, you sweat and release substance and chemicals that are likely to destroy your body. The other day, I was told a man died. I questioned what killed him and was told the autopsy revealed that too much air received through air conditioner killed him. I was shocked hearing that. How could that have happened? Well, such happened because that man was intentional to exercise.

The other day a faith preacher boldly declared that he can't be sick and that he doesn't go to gym. An insightful person knows that though the preacher doesn't go to gym, he preaches for hours every day pacing the floor up and down. The preacher doesn't sit praying but stand. So, that preacher does his exercise by walking up and down. I know of another pastor who goes for two hours prayer walk every night. That's how that man does his exercise. Don't be ignorant. Exercise your body well.

Many years ago I was in a city where I don't have access to gym, so I crafted a method for myself to exercise. I decided to jog in my room. I will jog for about 15 minutes, just to shake my body. I jog up and down within the room and stretch my body. Doing this really helps a lot and one is able to avoid the excuse that you couldn't exercise because you

don't have access to gym.

## 4. Rest

**I**f you cannot rest, you will soon be laid to rest. Taking time to rest grants the opportunity to refresh your mind. When you rest, a healing process takes place. Even doctors recommend rest as a healing element. The purpose of rest is to restore to you what isn't there. Rest restore strength and energy.

If you don't rest, you will be forced to rest. It's not good when you are forced to rest. Your body can force you to rest. Do you know that you should always rest for few minutes immediately after eating?

The day I knew the power of rest was the day I learned that God rested on the seventh day. If God truly rested who are mine not to rest? Are you stronger than God not to rest? God as God rested. Those who believe have entered into their rest. If you don't believe in rest, you cannot enter into rest. Faith doesn't mean you shouldn't rest. In fact, faith people rest - they relax their body and mind.

## 5. Sleep

**S**leep is good, oversleeping is what is bad. If you don't take time to sleep on bed, rug or chair, you will soon sleep in the Lord. God doesn't sleep nor slumber because He is not flesh but you have flesh which requires sleep. When you sleep, it isn't your spirit that sleeps but your body. Your human spirit cannot sleep but can only rest. Rest is designed for spirit not sleep. But both rest and sleep are for your body and mind. Your body need enough sleep to keep it young and active.

Jesus rested and slept. So, it's not wrong to sleep. You should sleep but avoid oversleeping. Oversleeping makes you lazy and waste time. To sleep too much is to waste much time. You should avoid oversleeping but ensure you sleep well. It's proven that a man needs to sleep for at least six hours to remain healthy.

When just recuperating, ensure you take time to sleep. Sleep gives opportunity to your body to adjust itself. Sleep gives divine approval to your body to

heal itself. It's sleep that makes you strong. When you sleep, you become stronger. Sleep heals you from stress. Sleep takes away the stress of the body.

## 6. Medicine

**I**n ancient times, before the advance of the medical field, people had been familiar with all kinds of medicine. The medical field is vast and wide as new discoveries are made daily. Pharmacists keep discovering new things that can be made into drugs. The Bible also recognizes medicine. In fact, it should be accepted that God gave wisdom to medical practitioners.

God created plants from whence medicines were made from. Both the source and wisdom to make it happen were given to man. When a person is sick, the person can either take drugs or faith. You take faith through God's word. God's word is also God's medicine. But you have to know that God has given the wisdom to men to create medicines.

Medicine are for healing. They heal the body from ailments and damages. It's essential to know that there's no drug made for health. All drugs are made for healing. Drugs are for healing not health. There's no drug that can keep you from getting sick, they

can only stream healing from pains and sicknesses into your life.

No believer should castigate the use of medicine. If you have the faith not to use drugs and get healed, never force the same on people. It's ignorance that make believers to tell other believers not to use drugs. It takes time to build your faith to a level where you won't use drugs. What many don't know is that those who profess to use faith for healing eat balance diet and take enough time to rest. Let's be real. You can always use medicine as prescribed to you. I don't discourage believers from using drugs. I believe that we can always combine faith with wisdom. No minister of God should tell people not to use drugs. You may teach them about faith but let them have a personal revelation of not using drugs.

## 7. Positive Thinking

**H**ealing thoughts can produce healing into your body. Every time you think about something, you are instructing your body. Your body takes instructions from your thoughts. What you think about your health is what you see there. What you think when you are sick is more powerful than your sickness. When your thinking is right, your healing will be right. Stop thinking about your sickness, start thinking about your healing.

Your thinking is a way of telling your body how you want it to be. Your body can't be in the right condition when you are thinking wrongly. Many people remain sick because they never think how they want their body to be. Psychologists understand this aspect very well. If the sickness isn't in your thinking, it will soon leave your body. If you can kill a sickness in your thoughts, then, you can kill it in your body. Pains are real because they are in your soul. Until you discard the thoughts of sicknesses and pains, you will never overpower

sicknesses. If you want your healing, then watch your thinking.

## 8. Right Climate

**T**he right climate enhances fast healing. You can be sick in the wrong atmosphere but can't be healed in the wrong climate. If the place is bad, the health can become bad. But if the place is bad, you don't expect the health to become better. It's illnesses that takes place in bad places not healing. You should ensure you are on the right atmosphere regularly if you really want to be healed.

Any atmosphere that contains bad smell isn't the right atmosphere for you. An atmosphere that contains much noise isn't the right place for you to be. An atmosphere where people find it easy to speak negative words or rain curses isn't the right place to be. Thoughts are product of vibration. It's the words echoed into the air by people and from the invisible world that eventually develops into thoughts. It's amazing to know that the thoughts that flow into our hearts are words that have flown out of the mouth of people.

You don't expect healing to come in an atmosphere

alien to fresh air. You want to be in a place where your faith will be strengthened not a place where your heart will be poisoned.

# III

## Supernatural Streams

## 9. Faith Declaration

**F**aith speaks. Faith talks what will happen and what must happen. A person of faith is one who understands that healings can be activated through the words he says. Thinking right is natural but speaking faith is supernatural.

Scripture reveals that the word became flesh. If you are sick or diseased, you can speak words of faith that will become healing to your body. Your body can be influenced by the words you say. In the natural world, if you want to tell someone to close his eyes, all you need do is to talk to that person to close his eyes. As long as you talk, the person will surely close his eyes. That's what happens when you talk to your body by faith. Your body can hear what you say. If your ears have certain pains, you can talk to the pains in your body to heal. The moment you talked, just believed that it's settled already.

There are people who got healed in scripture by their faith. They showed their sicknesses and diseases that their faith was powerful and could

conquer it. Show your sickness your faith by the words you say. Scripture says you shall have what you say if you don't doubt. Evidently, if you have a damage internal organ, you can release life to that organ.

Faith doesn't talk fear. Faith doesn't talk negative reports. Faith doesn't dwell on facts but on belief. It's to you according to your belief not your facts or reports. Faith doesn't mean you shouldn't use drugs; it only suggests that your faith isn't anchored on the drugs you use.

Faith can talk to you just as fear can also talk to you. You can hear faith just as you can hear fear. If faith talks to you and you listen to it, you will be so powerful than you imagined. You will just believe that your sickness or disease doesn't have power over you. Also, if fear talks to you and you believe it, that thing you fear will eventually happen to you. Many people died because they feared. Fear can kill. Fear can torment. Many are not really sick, it's the fear of death that keep them sick. Job said the things which I fear has come upon me. Anything you fear will eventually happen to you. If you fear dying, you will eventually die. Fear is a magnet that will always magnetize what you fear to you. But if the fear of death comes and it meet faith in your heart and mouth, it will go back. Fear is a stranger that wants to become a landlord in your life.

Any time fear comes to your heart, don't be quiet. Talk. Talk boldly to your fear. Talk boldly to your pains and sicknesses. A man of God said the sick that is too quiet will remain sick. When Jesus was on the cross, the devil nailed his hands, legs but failed to nail his tongue. It was with his tongue that He finished the devil. Even in pain and agony, Jesus talked. You have to talk. Refuse to be silent when you are sick. Quietness permit sicknesses. When you are sick, boldly talk and command sickness to get out of your body in the name of Jesus. If mountain can move by your word of faith, then, sicknesses can move by your words of faith. You must never tolerate sicknesses in your body. If you won't tolerate it, then, you mustn't be quiet. Don't be quiet when you are sick. Talk to your sickness as though you are talking to your enemy. Sicknesses have intelligence that can be influenced.

One day, I heard a serious headache and spoke to it to leave. But for more than four hours, the headache didn't leave. I didn't keep quiet. I spoke again and again to it but it didn't go. One thing I didn't do was to remain quiet. So, as the pain became intense, I calmly and quietly commanded it to leave. I stood up to put water on my head and went back to my bed. The headache continued until I slept off. By the time I woke up, the headache had disappeared. The devil really wanted me to assume that the words I

spoke didn't work but I chose to keep talking. My understanding is that if the devil cannot silent you, He cannot conquer you.

The next time the thought come into your heart that you will die because of your sickness, boldly open your mouth to talk that you shall not die. Thoughts are arrows. Regardless of how worse your sickness or disease is, regularly declare that you shall not die but live. Command sickness to leave your body. Your words must be filled with command. Keep commanding sickness to get out of your body and boldly declare that you receive your healings.

## 10. Joy

Joy is a healing unction. You can't be joyful and feel the pain of sickness. Joy releases the flow of healing. Scripture says the joy of the Lord is your strength. When you are joyful, you are strengthened. Those who are joyful are the one strengthened.

Joy is a stream created by God to paralyze sicknesses and diseases. At our annual Connect Confluence 2022, I was very sick. In fact, I had to sit to preach one night. The following night, they brought the chair for me to sit but I refused to sit. I told them to return the chair that I will stand. I managed to preach as I felt somehow. I felt all kinds of pain but still preached. After the message, the Spirit of God told me to tell the people to rejoice and praise Him. We began singing and dancing, suddenly joy broke out and I was strengthened. I began jumping and dancing. The pains and sickness disappeared. That's how I got healed. It was through joy I broke into my healing. Are you sick? Then, be intentional to get into singing, laughing, praising and dancing. Are

you sick, then, get into the joy of the Lord and you shall be amazed how your healing will come.

## 11. The Anointing

Jesus was anointed to heal the sick. When believers lay hands on the sick, the sick shall recover. There's also the healing gifts of the Spirit that can flow through a person to the sick. There's no sickness or disease that can withstand the healing anointing. For people whose sicknesses and diseases are product of oppression, such people need the release of the healing anointing. Oppression can only be destroyed by the anointing. When elders of the church are called upon and prayers are made for the sick, God will cause the healing unction to be released on the sick and such will be healed. How we need men who will be a major expression of the healing anointing. God is always ready to heal the sick if only He finds a vessel that can be a channel for the release of anointing.

The name of Jesus is a major channel to release the healing anointing. At the name of Jesus, your sickness has to vanish. The issue is that we have not be able to distinguish the difference between

spiritual manifestation from physical one. The moment you rebuke sickness or disease in the name of Jesus, something had taken place in the realm of the Spirit. Nothing may change physically when you rebuke sicknesses or diseases in the name of Jesus, but something really take place spiritually. When you apply the name of Jesus over a sickness or disease, nothing may change physically but many things changed in the invisible world. You may pray in the name of Jesus but still feeling your pains after you have prayed. You mustn't be moved by the pains but by your faith. Your faith in the name of Jesus makes things happen in the realm of the Spirit. The moment you rebuke a sickness or disease in the name of Jesus, believe that something has taken place spiritually though nothing happens physically. If you have malaria, typhoid, a virus, fibroids, etc. be bold to command such to get out of your body in the name of Jesus. The moment you spoke, believe that something has taken place spiritually. You may not see the change you want physically instantly the moment you spoke. But just believe that something has happened spiritually the moment you spoke.

There are chronic sicknesses that are product of oppression. Some of these have legal grounds of operation. Legal grounds refer to the fact that the oppressive powers have genuine reasons to oppress. This is where elders with higher spiritual authority

comes in. Healing anointing comes because we provoke the release of it. We provoke the anointing to be released by our faith. Believe that your healing will be restored by the anointing of the spirit resident within you.

## Conclusion

## About the Author

Niyi Makinde is a leadership expert, quotient coach, consultant, author and a Christian minister with an apostolic calling. His passion is to raise Christian ministers and leaders like himself, as well as to help organizations and businesses maximize their potentials.

Apostle Niyi Makinde has been in Christian ministry for over 15 years. He is the President of Rebirth Global Church, a network of churches across the globe on a mission to empower believers to fulfill their God-given tasks on earth. He is an apostolic oversight and covering for many other ministries, networks and churches.

Niyi Makinde has written many books that are fast spreading across places. His books are always

flooded with rich content and great wisdom.
